contributed articles on economic aspects of agriculture in india

indian agriculture clearly needs change the green revolution s momentum has
been lost with stagnation even crisis setting in how will this change come about
by thinking of agriculture beyond the wheat rice and cotton tobacco framework

from irrigation and fertiliser to innovative farming practices credit and infrastructure to farmer distress marketing and pricing to climate change poultry and rabbit farming to horticulture and floriculture this book provides a fresh construct for agricultural growth

authentic and authoritative this presentation shares a comprehensive overview of the extensive research undertaken by the agro economic research centers aercs and the concerns confronting indian agriculture established across the states in india to provide policy feedback to the ministry of agriculture the aercs generated many important research initiatives and debates over five decades this second volume focuses on the problems confronted at the regional level by each of the participating states

this open access book provides an evidence based roadmap for revitalising indian agriculture while ensuring that the growth process is efficient inclusive and sustainable and results in sustained growth of farmers incomes the book instead of looking for global best practices and evaluating them to assess the possibility of replicating these domestically looks inward at the best practices and experiences within indian states to answer questions such as how the agricultural growth process can be speeded up and made more inclusive and financially viable are there any best practices that can be studied and replicated to bring about faster growth in agriculture does the prior hypothesis that rapid agricultural growth can alleviate poverty faster reduce malnutrition and augment farmers incomes stand to answer these questions the book follows four broad threads i linkage between agricultural performance poverty and malnutrition ii analysing the historical growth performance of agricultural sector in selected indian states iii will higher agricultural gdp necessarily result in higher incomes for farmers iv analysing the current agricultural policy environment to evaluate its efficiency and efficacy and consolidate all analysis to create a roadmap these are discussed in 12 chapters which provide a building block for the concluding chapter that presents a roadmap for revitalising indian agriculture while ensuring growth in farmers incomes

this book examines the various issues and concerns faced by indian agriculture under the obligations of wto and the free trade agreements while the issues discussed pertain mainly to india the lessons can also be derived for many other similarly placed developing countries the book delves into various aspects of indian agricultural trade and evaluates the domestic policies and regulations of government while also looking at external factors like wto free trade agreements and non tariff barriers chapters of this book have been contributed by eminent agricultural economists lawyers and social scientists providing the perspective from their sector this book highlights the challenges and opportunities for

agriculture sector under the rapidly growing regional trade agreements and results of negotiations under the wto it also provides critical insights into the ongoing fisheries subsidies negotiations at the wto and issues relating to non tariff measures the findings have broad implications for developing countries in general and india in particular this book will greatly benefit trade negotiators policymakers civil society farmer groups researchers students and academics interested in issues related to the wto ftas tariff and non tariff barriers and other allied issues concerning indian agriculture the techniques used in analytical part will mostly benefit the researchers as they can not only use these techniques and methodologies for their future research but to also carry the research forward the book is useful for many educational institutes which teach international trade agricultural economics and wto and ftas studies

contributed papers presented at the conference organized by dept of geography aligarh muslim university

in developing countries like india agriculture sector has enormous human and economic implications what is the role of backward and forward linkages in agricultural development this book tries to make sense of policy and implementation barriers the establishment of efficient backward and forward linkages plays an important role which determine the production and distribution potential at a given time and space among the issues the author addresses are input management and distribution production contribution factor contribution market contribution and growth of allied sectors the study analyses the policies formulated and programmes implemented since the first five years plan towards promotion of hybrids fertilisers and farm implements and their economic impact the study is based on state wise secondary data

the most thorough and comprehensive treatment of american indian agriculture in print multidisciplinary and impressive both in scope and in depth richard white author of it's your misfortune and none of my own hurt's chapters on indian agriculture and water rights in the twentieth century are timely and instructive new mexico historical review

this edited book focus on highlighting the evolution of indian agriculture over the past 75 years of independence covering every sector viz crop science horticulture management of biotic abiotic stress post harvest quality management livestock fisheries mechanization marketing and human resource development the book has 30 chapters from most experienced researchers and academicians who are actively engaged in research work on the subject area of the book the book is in line with the strategy for new india 75 brought out by niti ayog it highlights india's success stories in innovation technology enterprise and

efficient management together to achieve overall growth while making available food required nutrition and others ecological services it also assesses the India's preparedness in terms of commitment toward sustainable development goal SDG. The book is a relevant reading material for both students and researchers and policy makers.

Agriculture is a major source of rural employment and plays a crucial role in the economic development of India. The state of Indian agriculture examines the present scenario of Indian agriculture and studies the trends at national as well as state level. The overall objective of the book is to analyze the impact of climate change on Indian agriculture and its implications for food security. The book recommends strategies to enhance productivity and the adoption of climate smart practices to promote sustainable agriculture thereby ensuring food security in India. It argues that there is an urgent need for a holistic and strategic approach to mitigate the challenges of climate change.

Perspective of Indian agriculture industry and infrastructure are themes sought after by many in various organisations including the academic community for extensive research policy formulation and implementation. Under these four heads a number of specific topics have been covered in this publication through thought-provoking papers. These are contributions from specialists associated with research work implementors and practitioners of programmes. The contributors present considerable insights into review of progress gains and shortfalls of implementation and directions for the future. They throw light on what needs to be done for accelerating economic growth at national state and sub regional levels to enable India to become a developed nation. Efficiency of the use of physical resources and human resources is vital along with effectiveness of the use of capital advanced technologies and adoption of modern methods of governance. A few of the specific themes covered are a) agriculture food security Indian agriculture scenario tobacco cotton dairy development and networking of rivers b) industry enhancing competitiveness among small and medium enterprises and Indian industry as a whole parents quality improvement and pharmaceuticals and c) infrastructure export promotion industrial parks rural infrastructure power sector.

Agriculture and allied sectors unquestionably are considered to be the largest source of livelihood in India contributing largely to the GDP of the country. However, despite a significant increase in the production of food grains, the agriculture sector has been facing innumerable challenges primarily because of its dependency on natural resources which have shrunk due to increasing demographic and socioeconomic pressures. This book a study assigned by the Ministry of Agriculture studies different facets of agriculture and allied sectors. It

provides an overview of indianagriculture and presents an analysis of its performance over the years showcasing the issues faced in the development of agriculture it captures the interventions and initiatives of the government for the development of indian agriculture
